

Benefits of Attending & Past Statistics

Industry Benefits of Supporting AABIP

- Technical and educational sessions provide a professional and educational environment in which individual physicians can network with respected colleagues and industry representatives.
 - Attendees can participate in technology demonstrations, view product demonstrations, and discuss the clinical uses of products and services, including how they may improve the quality of care and optimize the management of the patient with intrathoracic disease.
 - Contributes to the advancement of Bronchology and Interventional Pulmonology on an international level
 - Be present with the industry's leading companies at the exhibition who will showcase their latest products such as bronchoscopy equipment, the latest pharmaceutical medications and diagnostic services
 - Network with AABIP committee at the gala dinner and other networking events
